## L'azienda

Diamil is a Harditalia srl trade mark for the sale of inserts and tools dedicated to iron and steel industry. Harditalia srl, member of OMCD Group, is a sintered hard metal producer with a leading position in the Italian market. Our inserts, thanks to a well developed know how in hard material matter due to a 40 year experience and profitable partnership with the other Group companies, are made with a wide range of carbide mixtures. A very well equipped laboratory of R&D supports the development of new products to keep our inserts constantly at the top in the market. Advanced technologies plus high professional skills plus a strong attention to please and achieve the best result to satisfy Customers are parts of Diamil's life style. Our policy is based on a promptly answer to customers needs; this is possible thanks to a ready on shelf delivery and flexible approach to customer inquiry. Diamil also provide a pre-&after sale full service offering advice and technical know-how, cooperating with customers in order to find the best practical solutions to production problems. Full customer satisfaction is our goal and what we work for everyday!

Diamil è il marchio con il quale vengono commercializzati gli inserti e gli utensili prodotti da Harditalia srl destinati all'industria siderurgica. Harditalia è una delle società del Gruppo OMCD che produce sinterizzati e vanta una posizione di leader tra i fabbricanti di metallo duro per applicazioni industriali in Italia. Il know how sviluppato in questi anni, grazie anche agli interscambi con le aziende consociate, permette ai nostri inserti di venire realizzati contando su un'ampia gamma di "miscele di carburi", nonché su attrezzature all'avanguardia e di essere sviluppati con il supporto di un moderno ed efficiente laboratorio di ricerca e sviluppo. La tecnologia, l'alta competenza professionale e la continua attenzione al raggiungimento del miglior livello di soddisfazione del cliente sono da sempre le direttive fondamentali, che ci rendono il partner ideale nel fornire utensili affidabili e controllati ad ogni passo della filiera produttiva. Flessibilità del servizio, puntualità e velocità nelle consegne, rese possibili da importanti magazzini di stoccaggio, ci consentono di far fronte in tempi molto brevi alle richieste di consulenza tecnica pre e post-vendita, in grado di fornire soluzioni complete, di scegliere in modo puntuale i materiali e le attrezzature più idonee alle singole applicazioni. L'impegno costante e motivato del team Diamil porta ad un'offerta di prodotti e servizi mirati a garantire i più elevati standard qualitativi.

## Inserti

This catalogue is dedicated to heavy turning inserts. Standard shapes, normally available ex stock, are shown in the following pages. The very flexible organization and a knowledge in deep of the matter allow us to co-design with the customer special shapes dedicated to specific turning application. Diamil is continuously introducing new hard metal grades and new shapes to provide a product that can satisfy the always increasing and fast demands created by the market without forgetting our prime target: the customers' approval and satisfaction.

Il presente catalogo è dedicato agli inserti per le lavorazioni di tornitura pesante. In esso sono raccolte le geometrie standard normalmente disponibili a magazzino. Grazie ad una struttura flessibile ed un ottimo know how tecnico siamo in grado di sviluppare geometrie particolari dedicate a particolari lavorazioni in co-design con il cliente. La continua analisi del mercato ci porta ad innovare costantemente il nostro prodotto inserendo nuovi gradi e nuove geometrie per un completo soddisfacimento del cliente.

# Our grades

## I nostri gradi

In order to optimize the hard metal substratum-coating system we have developed a number of different combined grades shown in the below table.

---

### KEY FOR GRADE CODE:

---

H15PA Hard metal grade: H15P  
Coating: A

---

Coating description:

- Type A: CVD multilayer TiCN AL203 TiN
  - Type B: CVD multilayer TiCN TiC TiN
  - Type C: PVD monolayer TiAlN
  - Type D: PVD monolayer TiN
- 

L'offerta si articola su diversi gradi studiati come sistema metallo duro-rivestimento.

---

### CHIAVE PER IL CODICE DEL GRADO:

---

H15PA Grado di metallo duro: H15P  
Rivestimento: A

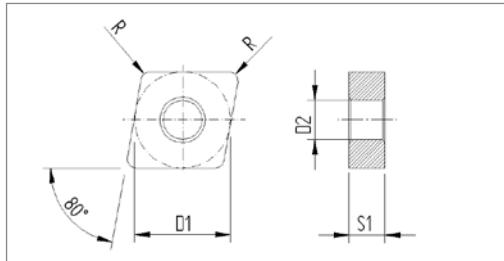

---

Descrizione del rivestimento:

- Tipo A: CVD multilayer TiCN AL203 TiN
  - Tipo B: CVD multilayer TiCN TiC TiN
  - Tipo C: PVD monolayer TiAlN
